- Our coordinated network results in a unified solution that enables you to focus on what is most important to you.
- By overseeing your entire financial plan, we develop a deep understanding and awareness of your entire financial picture to provide you with clarity.
- Our partner organizations combine the credibility of globally-recognized financial firms with local, independent partners working together for you.
- Each of our partners has clearly defined roles and responsibilities. The synergy creates robust financial planning capabilities.

A STRONG NETWORK

Registered Investment Adviser

Royal Fund Management, LLC is a SEC Registered Investment Adviser. As fiduciaries, we are obligated to act in the best interest of our clients. As an independent advisory firm, there are not product relationships that may cloud our judgement when choosing appropriate investments. The firm's compensation is directly correlated to the value of our clients' managed account, which aligns our interest. *Client First* is not just a logo. Our mission statement is quality, service, teamwork and the quest for excellence.

Our Coordinated Team

Our established network of professionals provides extensive expertise and seamless coordination across all aspects of your financial life. This includes tax planning, estate planning, Social Security and Medicare strategies, account aggregation, and more.

Independent Custodian

We partner with independent financial institutions to provide asset custody and safekeeping services, which creates a critical barrier between your funds and any outside party. The custodian provides you with periodic statements, executes trades, and collects all interest and dividend income owed to you.

CREDENTIALS

We are committed to industry best practices, continued education and professional development.

Our diverse team diligently seeks to understand new methods of helping you as the financial services landscape evolves. Through our professional relationships, your portfolio will be constructed, managed, and monitored by financial professionals that are affiliated with some of the industry's most prestigious organizations and that hold some of the industry's most regarded designations like:

CFP BOARD

THE STANDARD OF EXCELLENCE

CERTIFIED FINANCIAL PLANNER™ certification is the standard of excellence in financial planning. CFP® professionals meet rigorous education, training and ethical standards, and are committed to serving their clients' best interests today to prepare them for a more secure tomorrow.

A certified financial planner (CFP) is an individual that has received a formal designation from the Certified Financial Planner Board of Standards, Inc.

CFPs help individuals in a variety of areas in managing their finances, such as retirement, investing, education, insurance, and taxes.

Becoming a CFP is one of the most difficult and stringent processes in terms of financial advisors. It requires years of experience, successful completion of standardized exams, a demonstration of ethics, and a formal education.

The most important aspect of a CFP is that they have a fiduciary duty, meaning they must make decisions with their client's best interests in mind.

CORE VALUES

Fiduciary

We serve as a fiduciary at all times and for all aspects of our relationship. Although our recommendations need to be suitable for your situation, we are held to a higher standard and must always act in your best interests.

Transparency

Our fees and responsibilities are put in writing. We are fee-based advisors and do not receive commissions. This aligns our interests as we only do better when you do. It puts us "on the same side of the table".

Commitment

As fiduciaries, we are held to a higher standard of care and commitment. We diligently serve as your comprehensive financial advisor with clearly-defined and easy to understand mutual responsibilities.

Communication

Frequent communication is key. We communicate regularly through our newsletters, email and video emails, as well as phone calls. Planning and account reviews are scheduled annually, at a minimum. Communication frequency is increased as the need arises. We always make ourselves available anytime we are needed.

Independence

We are not owned, controlled or directed by any other entity. This allows us to seek and implement what we believe are the best possible solutions for our clients.

Proactivity

We help you prepare for the unforeseen circumstances we all face over time. We make sure your financial plan is dynamic as it may have to evolve based on unanticipated events.

Organization

We will help bring order and simplification to your financial life.

Relationship

We work collectively with you, not just for you.

Accountability

Accountability refers to our obligation and willingness to accept responsibility. Through clear and concise planning, we stay on course and work together to achieve your goals.

Education

Education is a cornerstone in our financial planning process. We believe our clients should understand what we are doing, why we are doing it, and how it benefits them. Through education, our clients can make clear financial decisions.
